MATERIAL SAFETY DATA SHEET

BENZALKONIUM CHLORIDE

1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

   | Product Name:          | Benzalkonium chloride |
   | Company Identification:| 237/2, Vellivoyal Chavadi |
   |                          | Chennai - 600 103. Tamilnadu |
   | Office Telephone No:    | 044 64606747          |

2. COMPOSITION / INFORMATION OF INGREDIENTS

   Chemical description: Benzalkonium chloride

3. HAZARD IDENTIFICATION

   Classification of the substance or mixture:
   Classification according to EU directives 67/548/EEC or 1999/45/EC REGULATION (EC) No. 1272/2008 Classification of the substance or mixture

   Label elements:
   Hazard Statements: Causes severe skin burns and eye damage. Causes serious eye damage.
   Precautionary Statements Prevention: Do not breathe mist or vapor. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection
   Precautionary Statements Response: If swallowed: Rinse mouth. Do NOT induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison...
4. FIRST AID MEASURES

General Advice: Remove from exposure. Remove contaminated clothing. For treatment advice, seek guidance from an occupational health physician or other licensed health-care provider familiar with workplace chemical exposures. In the United States, the national poison control center phone number is 1-800-222-1222. If person is not breathing, give artificial respiration. If breathing is difficult, give oxygen if available. Persons developing serious hypersensitivity (anaphylactic) reactions must receive immediate medical attention.

Inhalation If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention immediately.

Skin Contact: In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Cover the irritated skin with an emollient. Cold water may be used. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention immediately.

Eye Contact: Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Cold water may be used. Get medical attention immediately.

Ingestion: Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If large quantities of this material are swallowed, call a physician immediately. Loosen tight clothing such as a collar, tie, belt or waistband. Most important symptoms and effects, both acute and delayed Corrosive effects. Gastrointestinal disturbances. Respiratory depression.

5. FIRE FIGHTING MEASURES

Extinguishing Media: SMALL FIRE: Use DRY chemical powder. LARGE FIRE: Use water spray, fog or foam. Do not use water jet.

Special hazards arising from the substance or mixture: Risks of explosion of the product in presence of mechanical impact: Not available. Risks of explosion of the product in...
6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures: Keep unnecessary personnel away. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Avoid inhalation of vapors. Wear appropriate personal protective equipment.

Environmental precautions:

Methods and material for containment and cleaning up: Absorb spillage with suitable absorbent material. For waste disposal, see section 13 of the SDS. Clean surface thoroughly to remove residual contamination.

7. HANDLING AND STORAGE

Precautions for safe handling: Keep locked up.. Keep container dry. Keep away from heat. Keep away from sources of ignition. Empty containers pose a fire risk, evaporate the residue under a fume hood. Do not ingest. Do not breathe dust. Never add water to this product. In case of insufficient ventilation, wear suitable respiratory equipment. If ingested, seek medical advice immediately and show the container or the label. Avoid contact with skin and eyes. Keep away from incompatibles such as oxidizing agents, moisture.

Conditions for safe storage, including any incompatibilities & Storage: Hygroscopic. Keep container tightly closed. Keep container in a cool, well-ventilated area. Do not store above 23°C (73.4°F).

8. EXPOSURE CONTROL / PERSONAL PROTECTION

Control parameters

Exposure controls

Engineering Controls: No exposure standards allocated.

Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit

Eye/face Protection: Safety glasses with sideshields are recommended. Face shields or goggles may be required if splash potential exists.
or if corrosive materials are present. Approved eye protection (e.g., bearing the ANSI Z87 or CSA stamp) is preferred. Maintain eyewash facilities in the work area.

Skin Protection: Chemically compatible gloves. For handling solutions, ensure that the glove material is protective against the solvent being used. Use handling practices that minimize direct hand contact. Employees who are sensitive to natural rubber (latex) should use nitrile or other synthetic nonlatex gloves. Use of powdered latex gloves should be avoided due to the risk of latex allergy. To reduce the risk of contamination of skin and surfaces, wear two pairs of gloves. Remove the outer gloves after handling and cleanup of the material, and remove the inner gloves only after removing other personal protective equipment.

Body Protection: For handling of laboratory scale quantities, a disposable lab coat or isolation gown over street clothes is recommended. Where significant quantities are handled, work clothing and booties may be necessary to prevent take-home contamination

Environmental exposure controls:

9. **PHYSICAL AND CHEMICAL PROPERTIES**

10. STABILITY AND REACTIVITY

Reactivity
No reactivity hazards known.

Chemical stability
The product is stable.

Possibility of hazardous reactions
No dangerous reaction known under conditions of normal use.

Conditions to avoid
None known.

Incompatible materials:
Reactive with oxidizing agents. Slightly reactive to reactive with acids, alkalis.

Hazardous decomposition products:
NOx, Cl-. Irritating and/or toxic fumes or gases. Emits toxic fumes under fire conditions

11. TOXICOLOGICAL INFORMATION

Acute toxicity:
(LD50/oral/rat) 240 mg/kg [Rat].

Inhalation:
May cause respiratory tract and mucous membrane irritation with sore throat, coughing, shortness of breath, and delayed lung edema. May cause chemical burns to the respiratory tract. High vapor concentrations may cause nervous system effects.

Skin irritation / sensitisation
Causes skin irritation and skin burns.

Reproductive toxicity:
May affect material (mutagenic) and may cause adverse reproductive effects.

Eye irritation
Causes eye irritation and eye burns.

Germ cell mutagenicity:
Mutagenic for mammalian somatic cells. [Benzalkonium chloride]. Mutagenic for bacteria and/or yeast. [Benzalkonium chloride]. Mutagenic for mammalian somatic cells. [Ethyl alcohol 200 Proof]. Mutagenic for bacteria and/or yeast. [Ethyl alcohol 200 Proof].

Carcinogenicity:

12. ECOLOGICAL INFORMATION

Ecotoxicity:
Not available.

Mobility in soil
Not available.

Persistence and degradability:
Possibly hazardous short term degradation products are not likely. However, long term degradation products may arise.

Bioaccumulative potential:
Not available.

Results of PBT and vPvB assessment:

13. **DISPOSAL CONSIDERATIONS**

Waste Disposal methods
Product: Waste must be disposed of in accordance with federal, state and local environmental control regulations.

Contaminated Packing
Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. **TRANSPORT INFORMATION**

**Road transport (ADR/RID/ADN)**
ADR/RID Class 8
UN-No 3261
Packing Group II
Proper Shipping Name Corrosive Solid, Acid, Organic, n.o.s. (Benzalkonium Chloride)

**Sea transport (IMDG)**
ADR/RID Class 8
UN-No 3261
Packing Group II
Marine pollutant YES
Proper Shipping Name Corrosive Solid, Acid, Organic, n.o.s. (Benzalkonium Chloride)

**Air transport (ICAO-TI/IATA)**
ADR/RID Class 8
UN-No 3261
Packing Group II
Proper Shipping Name Corrosive Solid, Acid, Organic, n.o.s. (Benzalkonium Chloride)

15. **REGULATORY INFORMATION**

Safety, health and environmental regulations/legislation specific for the substance or mixture
